

Property Tax Reimbursement Income Limits History

Below is a listing of income eligibility limits for the Property Tax Reimbursement Program since its inception.

For purposes of the Property Tax Reimbursement Act, ALL INCOME that was received during the year — with very few exceptions — must be taken into account to determine eligibility. This includes income which does not have to be reported on the New Jersey income tax return such as Social Security benefits, disability benefits, and tax-exempt interest. For more information see the [Income Standards](#) for the program.
